

VIVEK SINGH

Frontend Developer | React.js | Next.js | TypeScript

Delhi, Saket | +91-9155242851 | vivek22jan99@gmail.com | viveksingh.vercel.app | github.com/Viveksingh99

SUMMARY

Frontend Developer with 3+ years of experience designing and shipping scalable web applications using React.js, Next.js, and TypeScript. Proficient in Redux Toolkit for state management, Progressive Web App (PWA) development, and REST API integration. Delivered production-ready solutions across e-commerce, flight booking, and grocery delivery platforms with measurable performance gains.

WORK EXPERIENCE

React Developer | Twai

May 2024 – Present

Project: FlyOne — Flight Booking Platform (Web & PWA) | Next.js, React.js, Redux Toolkit, TypeScript

- Architected and shipped a cross-platform flight booking PWA using Next.js and Redux Toolkit, handling thousands of daily active users.
- Developed a reusable component library for flight search, seat selection, and passenger management, cutting feature delivery time by approximately 30%.
- Consumed and integrated 10+ REST APIs with Redux Toolkit, resolving async race conditions and ensuring reliable booking state across all user flows.
- Raised Lighthouse performance score from 62 to 85 by applying lazy loading, dynamic imports, and image optimisation strategies.

Freelance Frontend Developer | Clouwood Studio

Sep 2023 – Apr 2024

Project: Clouwood Studio Blog Website | Next.js, Tailwind CSS, Headless CMS

- Planned and built a fully responsive blog website using Next.js, delivering a pixel-perfect UI aligned with brand guidelines.
- Configured Static Site Generation (SSG) and Server-Side Rendering (SSR) for SEO-optimised pages, improving organic discoverability.
- Achieved a Lighthouse score above 90 for performance and SEO by optimising Core Web Vitals including LCP, CLS, and FID.

Software Developer | Radiansys

May 2023 – Aug 2023

Project: Heartyy Fresh — Online Grocery Platform (USA) | React.js, REST APIs, CSS3

- Delivered responsive UI features for a US-based grocery e-commerce platform, improving the mobile shopping experience across devices.
- Collaborated with backend engineers on RESTful API contracts for product catalog, authentication, and order tracking; resolved 15+ cross-browser layout defects.

React Developer | IMG Global Infotech

May 2022 – May 2023

Project: FabIndia — eCommerce Platform | React.js, Tailwind CSS, JavaScript (ES6+)

- Designed and maintained scalable UI components for product listing, cart, and checkout workflows supporting a catalog of 5,000+ SKUs.
- Enhanced rendering performance through React memoisation and code splitting, reducing unnecessary re-renders and improving page responsiveness.

SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap

State Management: Redux, Redux Thunk, Redux Toolkit, Context API

Performance & SEO: Core Web Vitals, Lighthouse Optimisation, Lazy Loading, Code Splitting, SSG, SSR, PWA

Backend (Learning): Node.js, Express.js, RESTful API Development, JWT, OAuth, API Security

Database: MongoDB, NoSQL Data Modeling, Aggregation Pipeline

Tools & DevOps: Git, GitHub, GitLab, Postman, Thunder Client, Docker (Basics), CI/CD (Basics)

Soft Skills: Cross-functional Collaboration, Agile/Scrum, Problem Solving, Code Review, Attention to Detail

EDUCATION

Bachelor of Computer Applications (BCA)

July 2021

Aryabhatta Knowledge University, Bihar
